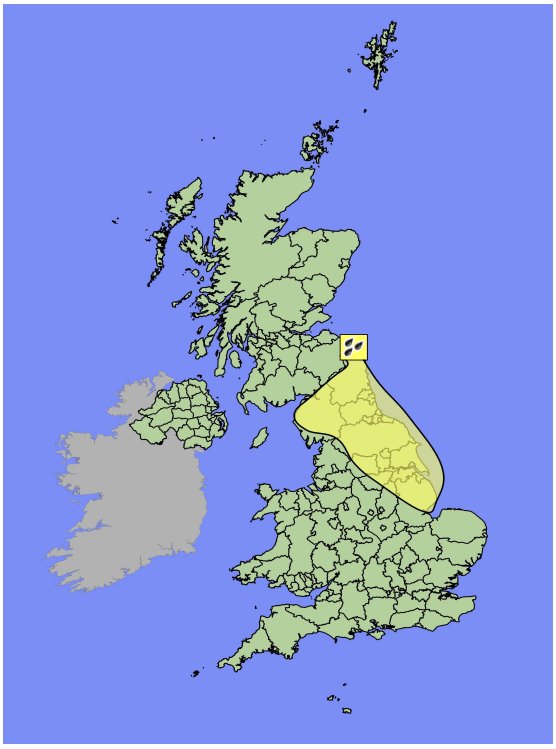
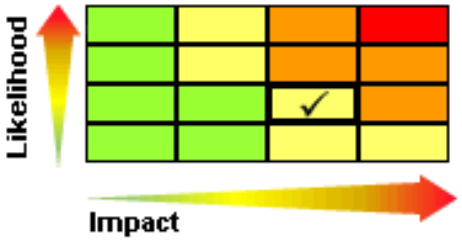
National Severe Weather Warning Service





Chief Forecasters Assessment
Showers will die out across the more southern parts of northern England during Tuesday night, but there is the risk of some slow moving heavy showers continuing over the north Pennines in particular. Further slow moving heavy showers and isolated thunderstorms are expected to develop across other parts of northern and eastern England during Wednesday, leading to localised surface water flooding.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **00:00 on Wed, 20th Jul 2011** until **21:00 on Wed, 20th Jul 2011**

A few slow moving heavy showers will continue across more northern counties of England overnight, before developing more widely across Northern and Eastern England during Wednesday. Some of these showers may produce 10-20 mm of rain within an hour.
